		Replace A237978 with new twp pump DH512178 598 Farnum Road Media, PA Date of service 11/4/21 Technician John Simons Arrived on site to find alarm panel broken with water in it due to branch falling from the tree in hitting Panel. Also found that the station was flooded. Replaced panel with a Symplex protect Township panel. Turned the pump on and it did not run. Removed pump A237978 from station and determined that it should be replaced with new Township core due to age and having being rebuilt already once. Installed new pump DH512178 and turned the panel on. The alarm sounded and the station started to pump down. The alarm reset and the pump cycled and shut off. Job complete.
