		(Mission House) (Upper Prov) 170 Timber Jump Ln Media, Pennsylvania 19063-1132 Date of service 11/30/23 Technician Pat Brady Arrived on site and met with Bill Kent with centrum mechanical thought to be a pump issue.He said this is a missionary house and every 6 months different people are living here.I went over to the panel and the lock to the panel was broken it wasn't yesterday Open panel and the breakers were shut off. Also was told there is a young kid that is staying here that thinks he knows what he's is doing.Breakers were shut off because water was backing up in there basement. Kent from centrum said the water is from a sump pump that has nothing to do with pump and that the water coming up in basement is because they don't have the plumbing capped off where a future bathroom is going to be . When the water comes up in the basement people living there shut the breaker off. I turn breakers back on and pump pumped down and shut off.
