| 1 | Service/Ins 1 Labor-JS | Repair DH410218 476 West Rose Tree Rd Media, PA 19063 Date of service 3/18/22 Technician John Simons Arrived on site to find panel indicating overpressure. Turned breakers off and performed meter test and all readings were correct. Turned the breakers back on and checked amperage of pump and it was running at 10.4 amps and then going back into overpressure. Removed pump DH410218 from Station and found that the lower suction housing was completely clogged with wipes. The wet well also has wipes in it. Inspected the switches and they were corroded. Inspected the control clip and it showed signs of heat. Performed Meg test on motor and it passed. Replaced the switches, control clip, stator and cutter wheel due to teeth being worn. Called Hickman Sanitation out to have them clean the station completely. Reinstalled pump and tested from alarm. The pump is operating properly. Job complete Informed the customer that nothing other than toilet paper or normal waste and water should be flushed or going down drains. | 150.00 0.00 | 150.00 0.00 |

All material remains the property of Site Specific Design until final payment.
