		Replace A152035 with new Twp pump DH512323 781 Ridley Creek Rd Media PA Date of service 11/30/21 Technician John Simons Arrived on site to find pump A152035 in alarm and not running removed pump and installed spare, pump needs full rebuild so a new pump will be installed as a replacement. Returned to site 12/01/21 and installed Township core DH512323 with a 1224 adapter to replace the existing core A152035. Tested the pump and it operates properly. Need to return and install a township protect panel per Kevin Matson. Returned to site 03/04/22 to replace existing panel with Simplex protect panel provided by township. Determined that the main supply feed was coming through the back upper right hand corner of panel and that the panel is installed in stucco. Need to have an electrician re-run the main power feed so that it can penetrate through the bottom of the panel. At this point we cannot install it until this is done. Informed Kevin Matson and the customer of this. Currently the redundant run feature is removed from the printed circuit board due to water entering Panel through
