		Repair DH429420 Address: 205 Coventry Lane, Media , PA. 19063- (Anne Fenerty) Date of service 7/7/22 Technician John Simons Arrived on site to find station in alarm and pump DH429420 not running. Performed meter test and all readings were correct. Removed pump from station and inspected the switches, control clip, performed meg test on motor, inspected lower suction housing and cutter wheel. Determined that the control clip thermal overload failed. The Meg test found all readings to be good. The cutter wheel was worn but the stater was good. The switches were slightly corroded. Replaced the switches, and control clip. Replaced cutter wheel with a good used one. Returned the pump to station and the alarm cleared after a few minutes and the pump cycled at 6.8 amps and shut off. Job complete
