2	Labor-PB	<p>DH529134 2978 North Providence Road Media, PA 19063</p> <p>Date of service 7/12/22 Technician Pat Brady</p> <p>Pat arrived on site and found pump DH529134 in alarm and red light flashing. I reset the breaker's Pump pump down and shut off at 5.1 amps. Perform meter readings and there are shorts to ground on all pump wires, and they are pulled very tight. I megged the cable and cable meggs good, but ohms bad. The wires under the panel are cut from being pulled so tight. I spliced the wires and hook them back up in the panel, and took out the brown wire on the EQD end. Turn pump back on and pump goes into and out of alarm and from on/off 34 seconds at 5.4 amps pump is running correctly, but need to install a new 100 foot Cable, and a lid for the 4" inch clean out.</p> <p>Trying to get a hold of Kevin from upper providence to have a cable installed</p> <p>Labor rate for Pat</p>	110.00	220.00
