|     |           | <p>Replace DH401918 with new Twp pump DH794983<br/>   125 Boxwood Court<br/>   Media, PA 19063</p> <p>Date of service 8/13/22<br/>   Technician Jon McKee</p> <p>Emergency service call. Customer stated she had an alarm active and is not going off and needed assistance to silence the alarm. Customer was able to silence the alarm and notified customer I'll give her a call in the later AM and let her know when I'll be there. Arrived on site, station was in alarm but pump breakers were tripped. Reset breakers and they repeatedly tripped. Disconnected EQD and reset breakers again, breakers did not trip. Pulled pump DH401918 and dunked a spare pump to hold the customer over. Brought pump DH401918 back to the Rockwell Office for evaluation.</p> <p>8/21/22<br/>   Tested pump, meter checks checks indicate failed controls, pump trips breakers when powered on. Inspection of pump found corroded switches, burned and popped contactor, and failed motor. Pump requires full rebuild or replacement. Standing orders are to replace pumps that require rebuilds more than ten years old, pump is from 2011, will be replaced from township shed.</p> <p>8-24-22</p> |            |        |

|     |             | Arrived and found station flooded and pump in over pressure. Reset breakers and tested spare DH408735 and it was pulling 19 amps. Pulled pump and tested out of tank, same readings. Installed upper prov new pump SH DH794983. Voltage is 242 and amps are 5.9. Tested alarm, ok. Pump ran and pumped out of alarm then shut off 38 sec later. System is operating properly. |            |        |
