| | | DNR DH511681 New twp pump DH870182 Mike Maroulis (Upper Prov) 101 West Rose Tree Road Media, PA 19063 Date of service 10/31/23 Technician Pat Brady Arrived on site and found pump DH511681 in high level alarm and not pumping out all meter readings were incorrect pulled pump for further evaluation and found station was full of grease .Cleaned out station the best I could and installed site spare and bringing back pump DH511681 to shop for further evaluation/repair. Spare DH623206 has been installed and cycled pump goes into and out of alarm and from on/off 30 seconds at 6.4 amps pump is running correctly ESTIMATE 11/09/23 Determined that pump DH511681 switches are corroded. The control clip is the old style. The motor megs good but the bearings are starting to make noise. The stator is worn from a run dry occurrence and the cutter teeth are worn. Also found cloth like fabrics around the mechanical seal. | | | | |

| 1 | Service/Ins | Update: It was found the motor was damaged from the bearings becoming loose inside the motor itself. This deems the motor not reusable. This pump will require a full rebuild, or be replaced with a new core. | | | | |
