1	Service/Ins	<p>Replace DH486281 with new pump DH869936 Omar Abousoud (Upper Prov) 140 Kingston Road Media, PA 19063</p> <p>Date of service 11/6/23 Technician Brandon Mauro</p> <p>Arrived on site to find pump DH486281 showing intermittent alarm. Performed meter checks and found 2 shorts to ground on L1-L2 and a bad reading for switches and control bracket. Pulled pump from station and disassembled. I found corroded, pressure, switches, a worn stater, and a burnt double red jumper style control bracket. Also, capacitor had corrosion. Did a meg test on the motor and it had 4 wires in caution. With age of pump being more than 10 years and needing a full rebuild it was replaced core with a new pump DH869936. upper Prov shed does not have cores so they will be billed there set price for core \$2,963.00. Tested new pump and it runs normal time and 5.9 amps consistently. Pump has a far run but still has normal times and alarm functions properly.</p> <p>Service Call &amp; Inspection Fee &lt;</p>	150.00	150.00
