| | | Replace DH433649 with new pump DH869955 Adam Sacks (Upper Prov) 1515 Ridley Creek Road Media, PA 19063 Date of service 11/10/23 Technician John Simons Arrived on site to find station not in alarm. Performed meter test and found shorts on L1, L2, and manual run in panel. Disconnected the pump and performed meter readings at the pump and found the same readings indicating that the control clip had failed. Removed DH433649 from the station and found grease chunks in the wet well. Removed the grease chunks from the station and informed the customer that grease should not be going down the drains. Inspected the pump and the casting is starting to deteriorate. The cutter teeth are worn down and the switches and control clip would need replacing. Due to the age of pump and the cost of repairs, installed new core DH869955 as a new Township core. Tested the pump from alarm and the alarm sounds. Turned the pump breakers on and the pump runs at 5.9 amps. Once the alarm cleared the pump finished its cycle and shut off. Job complete. | | | OK TO PAY KEVIN MATSON, PE, OPERATIONS MANAGER  12/04/2023 | | | | |
