		Replace DH420552 with new twp pump DH879612 Ginnie Duffin 1950 Colt Rd Media PA 19063 Date of service 3/1/24 Technician John Simons Arrived on site to find that the station was not an alarm. Performed meter checks and all readings were correct. Manually operated the pump and it operated 6.1 amps. The customer explained that every time she uses the shower the alarm goes off. Removed lid to Station and pulled DH420552. Found that the casting is starting to fall apart and the cutter teeth are worn. this pump would require new switches, MCB, cutter wheel, stater and control cover. Due to the cost of repairs and the age of the pump, the township decided to replace with new Township core. Retrieved a core from the Township shed and returned to Site. Installed DH879612 and pulled vacuum to test the alarm because no one was home to run water and the hose bibs were off. The alarm sounds. Manually operated the pump and it runs at 6.1 amps.
