		<div><div><div><b>OK TO PAY</b> <b>KEVIN MATSON, PE,</b> <b>OPERATIONS MANAGER</b></div><div> <b>4/8/2024</b></div></div><div>Repair DH507324 Ken Wochele (Upper Prov) 114 Cove Lane Media, Pennsylvania 19063  Date of service 3/21/24 Technician John Simons  Arrived on site due to customer stating that the pump was turning on with the alarm. Performed meter checks and all readings were correct. Removed lid to Station and found ground water on top of the pump. Checked the Hubble nut on the transition piece and found that it was loose. Tightened the hubble nut so that water will not infiltrate the dry access. Pulled vacuum on the switches and the pump turned on with the alarm. Removed DH507324 from the tank and inspected the switches and found that they were severely corroded and had a broken tab on the on/off switch. Removed control cover and control bracket looked new. Found that the cutter teeth were completely worn off. Replaced the cutter wheel and switches and returned the pump to station and it immediately turned on because the water level was high enough. The pump operates at 6.7 amps. Pulled vacuum on switches and made the alarm sound as well. The system is operating</div></div>		

All material remains the property of Site Specific Design until final payment.
