		Replace DH438941 with new twp pump DH914948  Date of service 10/29/24 Technican Sebastian Gonzalez  Neil Curran (Upper Prov) 45 Well Fleet Dr Media, Pennsylvania 19063-4324  Arrived on site to find panel not in alarm. But the red light on panel was blinking on and off panel was reading over pressure. Performed meter readings and all readings to pump were bad. Only thing that was good was voltage to pump and panel. I pulled pump DH438941 I saw that pump was from 08/2006 I went to upper Prov shed to grab customer new core #DH00914948. Once I put new core into station I ran pump to alarm. And performed my last meter readings and everything checked out good.  Job completed
