		DH935983  Jude Pazulski (Upper Prov) 440 Sycamore Mills Rd Media, Pennsylvania 19063-2032  Date of service 3/7/25 Technician Sebastian Gonzalez  Arrived on site to find panel not in alarm. But station was over flowing. Performed meter readings and all readings to pump were good. Switches were readings were good. MCB readings were good. And amps were running on 5.7 amps. I pulled pump DH00935983 and saw that discharge grommet was blown. I replaced with a new one. And checked switches and switches were brand new. Checked mCB and that was in good shape. Megged motor and readings came back good. Checked stator and stator was also in good shape. Before installing pump into station I went to panel and megged cable wires and readings came back good. Once I performed all my meter checks I installed pump back into station and ran pump out of alarm. I also had customer run water so I can test pump to its normal cycle and everything checked out good.		

**OK TO PAY  
KEVIN MATSON, PE,  
OPERATIONS MANAGER**
