		Replace DH430196 with new twp pump DH00935958  Katelyn Oliver (Upper Prov) 205 Yarmouth Lane Media, PA 19063  Date of service 3/22/25 Technician Nick Butkewicz  Arrived on site and the alarm was going off and the pump wasn't running. The panel read overpressure. I performed my meter checks and they were normal. I pulled pump# DH430196 and brought it to my truck. The station had quite a bit of water in it when I pulled the pump. It also had a good amount of rags and grease in it. I pulled some out. I advised the homeowner that grease and rags will cause issues for the pump. Since this is Upper Providence Township and the pump was around 13-14 years old I put a new pump in. I went to the shed and grabbed pump# DH00935958. I put that pump in the station and it cycled through and shutoff. Pump ran at 6.4 Amps. Job complete
