|     |           | Repair DH870129<br><br>Thomas & Maureen Scheuerman (Upper Prov)<br>321 N Feathering Ln<br>Media, Pennsylvania 19063-1909<br><br>Date of service 4/1/25<br>Technician Sebastian Gonzalez<br><br>Arrived on site to find panel in alarm. Performed meter readings and all readings to pump were bad. Switches were giving off high numbers and pump had a McB that was reading 150 and amps were running on 5.0. Lifted lid to find station not flooded. Pulled pump DH870129 and went to disconnect EQD and saw that pump and house side EQD male and female 6 pin insert burnt. Went back to panel to meg cables in panel and panel wires megged bad. Went back to pump and broke down pump and saw that switches on pump were corroded. Megged motor to pump readings came back good ohmed motor and readings came back good as well McB on pump was burnt from the bottom I replaced with new MCB. Stator on pump was worn and I replaced with a new one. I replaced male 6 pin with a new one. Once I repaired pump. I installed a new 50' cable and informed Anthony |            |        |

|     |             | and Kevin Matson about situation and Mr Matson informed me that he will have Steve Botella come this week to bury temporary cable under ground. Once I installed cable I had customer run water so I can run pump to alarm and I installed pump ran pump to alarm and also had customer keep running water so I can run pump to its normal cycle and everything checked out good. Went back to panel to perform my last meter readings and everything checked out good. |            |        |
