		Replace A12629 with new twp pump DH934079		
		Lisa Miller (Upper Prov) 565 Rosemary Cir Media, Pennsylvania 19063-2235		
		Date of service 4/1/25 Technician Sebastian Gonzalez		
		Arrived on site to find panel not in alarm. Performed meter readings and all readings to pump were bad. Switches on pump weren't readings open nor closed. I also wasn't getting any amps on pump. I opened lid to station to find station not flooded but customer had an old 2K series pump #A12629 I pulled pump and replaced with new upper Prov core DH00934079. Once I installed new core I ran pump to alarm. And I also had customer run water so I can run pump to its normal cycle and everything checked out good. Performed my last meter readings and everything checked out good.		
		Job completed.
