		Replace DH428418 with new pump DH00939263  Caeser Crognale (Upper Prov) 104 Damview Rd Media, Pennsylvania 19063-1832  Arrived on. Site to find panel in alarm. Performed meter readings and all readings to pump were bad except voltage to pump and panel 240v switches on pump were giving high numbers and I wasn't getting any amp draws. I pulled pump DH428418 and saw that pump was from 01/2012 I replaced with new core that was in the back of my truck new core DH00939263 once I installed pump I ran pump to alarm and I also had customer run water for me so I can run pump to its normal cycle and both times everything checked out good.  Amps on new pump is 5.8 amps
