		DH511351 Church of Jesus Christ of Latterday Saints (Upper Prov) 170 Timber Jump Ln Media, Pennsylvania 19063-1132  Date of service 1/10/24 Technician John Simons  Arrived on site to find the alarm light on top of the panel blinking from extended run time. Opened the panel and no lights were lit except normal. Manually operated pump DH511351 and it runs at 6.2 amps. Performed meter test and all readings were good. Removed the lid to station and the dry access was full of ground water but the 2" vent pipe was empty. Removed vent pipe and drained the dry access. The alarm turned on and the pump ran at 6.2 amps. Once the alarm cleared the pump finished its cycle in 35 seconds.  The waterway behind the house was higher than normal due to the torrential rain fall the day before and the pump station was completely under water. The pump is working fine but the panel was indicating extended run time. Job complete				

All material remains the property of Site Specific Design until final payment.
