1	Emergency	Replace DH462849 with new twp pump DH00942194 Dan Bouikidis 298 Paxon Hollow Rd Media PA 19063 Date of service 5/11/25: Technician Nick Butkewicz Arrived on site and found the panel and station in the back of the house. Customer lives in Upper Providence. I found the breakers off so the pump and alarm were not on. I turned the breakers on and the alarm did go off, but the pump wasn't running. It wouldn't run manually either. I performed my meter checks and they were normal. I popped the lid off and saw a foot or more of water with some grease in there. I pulled pump DH462849 and brought it to my truck. The pump is almost 13 years old, so I'm going to put a new pump in. I drove to the Upper Providence sewer authorities shed and picked up pump DH00942194. I put the pump in the station and it cycled through and shutoff. Pump ran at 5.7 Amps.
