		<p>Replace DH465281 with new twp pump DH00941963</p> <p>Heather Carruthers (Upper Prov) 345 W Rose Tree Rd Media, Pennsylvania 19063-2012</p> <p>Date of service 5/27/25 Technician Sebastian Gonzalez</p> <p>Arrived on site to find panel in alarm. Performed meter readings and all readings to pump were good except amps to pump I wasn't getting any amp draws. Switches on pump were reading closed. Which meant there was enough water to kick on pump. I lifted lid to station to find station flooded. I pulled pump DH465281 and saw that pump was from 03/2013 I went to upper Prov shed to grab customer to new core DH00941963 before installing customers pump i put pump next to station and I went back to panel to meg cables in panel to make sure everything was working properly. Readings came back good. I went back to station to install customers pump and I was able to run pump in and out of alarm. I also asked customer to run water for me so I can run pump to its normal cycle and both times everything checked out good.</p>
