Date of service 5/1/24 Technician John Simons Arrived on site to find as the station is a 160 inch deep simplex. The customer was stated the pump was going in and out of Alarm more. Performed meter checks and all readings were correct. Removed lid to Station and found that a quarter of the dry access was full of groundwater due to the Hubble nut not being tight for the supply cable. Tighten and drained dry access. Removed the customers pump DH448537 from the station and installed Site spare DH524668. Need to have Hickman Sanitation go to the house and pump out station due to large amounts of wipes. Once the station is cleaned, need to return and install new Township core due to the age of the pump and the cost of repairs. Returned to site 05/01/24 and met Hickman Sanitation. Removed site spare and Hickman cleaned out the
