		<p>Repair DH511463 James Weidman steepchase Dr Media PA 19063</p> <p>Date of service 5/8/24 &amp; 5/14/24 Technician John Simons</p> <p>Arrived on site due to customer stating they had intermittent alarms. Performed meter checks and all readings were correct. Found that the station is at grade and should have 6" inch riser put on. Removed lid to station and pulled DH511463 from station. Inspected the switches and found they were both corroded. Replaced both switches and removed the control cover and inspected the control bracket. The control bracket looks brand new but had double red jumpers. Rewired the control bracket with one jumper. Verified that stater and cutter wheel are both good. Returned the pump to station and tested from alarm. The pump operates at 5.6 amps. Once the alarm cleared, the pump finished its cycle and shut off. Job complete</p> <p>Returned to site 05/14/24 and installed a 6 inch riser. Job complete</p>		

All material remains the property of Site Specific Design until final payment.
