|            |           | Replace DH336857 with new twp pump DH00950803<br><br>Linda Koethe (Upper Prov)<br>1031 N Ridley Creek Rd<br>Media, Pennsylvania 19063-2231<br><br>Date of service 7/2/25<br>Technician Sebastian Gonzalez<br><br>Arrived on site to find panel in alarm. And station overflowing with sewage. Performed meter readings and all readings to pump were bad. Switches giving off high numbers. And I wasn't getting any amps to pump. Pump had 247v and 127v. Managed to pull pump and saw that pump was from 12/2008 #DH336857 I went to upper Prov shed to grab customer new core. Only issue was I forgot to take photo of new core that I grabbed from upper Prov shed.<br><br>Once I grabbed new core from shed I put new core outside of station and went to panel to meg cables and all readings came back good. Went back to station to install core and was able to run pump in and out of alarm. And was also able to run pump to its normal cycle and both times everything checked out good. |           |          |            |         |
