Date of service DH429421  
Technician Sebastin Gonzalez

Arrived on site to find panel not in alarm but both breakers to panel were turned off performed meter readings and all readings were good except switches on pump and contact coil on pump. I lifted lid to station to find station not flooded. I pulled pump #DH429421 out from station and saw that pump was from 06/2012. I went to upper Prov shed to grab customer new core #DH00908760 I put new core into station and ran pump to alarm and performed my last meter readings and everything came back good. Job completed
