Performed meter test and found dead ground shorts on every pump wire. Removed the lid to station and performed meter checks at the pump and every pin had dead ground shorts. Due to the age of the pump and 2012 and the cost of repairs, retrieved a New Township core DH00908770 from the shed. Removed DH433140 and installed new core. Turned on the breakers and the alarm sounded. Turned on the pump breakers and the pump operates at 5.7 amps. Once the alarm cleared, the pump finished its cycle and shut off. Job complete</p>
