1	UD200A01A01AA	<p>Replace A122659 with new pump DH912286</p> <p>Chris Guadalupe (Upper Prov) 22 Ruskin Lane Media, PA 19063</p> <p>Date of service 11/2/24 Technician Nick Butkewicz</p> <p>Arrived on site and the alarm wasn't going off nor was the pump running. I performed my meter checks and it looked like a switch issue. I also noticed that there was power from the house but not to the pump. The breakers were bad. They looked a little corroded. I changed the breakers. I looked at the pump next and saw it was a 2000 series pump but the house was only 10 years old. It didn't make sense. Pump# A122659 was 24 years old. I replaced the pump with DH00912286. I put the new pump in and tested it from alarm and it was working like a champ. It ran at 5.9 Amps. Job complete. This is in upper providence.</p> <p>Core-ug-hw, 240V, CC, 7'C</p>	0.00	0.00
